## Express DigiBooks: Learning by New Rules!

Express DigiBooks is an innovative and motivational way to educate learners of all ages. Through cutting edge technology and gamification, this interactive digital platform promotes 21st century learning and inspire students with the ultimate learning incentive!

## Developing Communicative Language Competence.

It is widely accepted that the goal of language teaching is “communicative language competence”. Competences consist of a set of the essential skills, knowledge, attitudes, and behaviour required for effective performance of a real-world task or activity. The speaker will concentrate on how to maximise the effectiveness of realistic and meaningful input and suggest classroom techniques that will enable this to be successfully turned into output. Ideas will be given on how to structure lessons and learning – in general - in such a way that students are provided with the support they need to move forward and become self-confident, autonomous participants in the learning process.

## ‘Right On Time for English!’

In this session, we will explore Express Publishing’s new series ‘Right On’. We will discuss the methodological aspects of the series that make it an ideal choice for mixed ability classrooms – especially as every class is arguably a mixed ability class. Join us to see how the structure and content make teaching and learning fun, straightforward and effective.

## Kristy Kors Bio Data

Kristy Kors has a BA (Hons) from Leeds Metropolitan University and a CELTA allowing her to study different types of teaching methodological approaches. She taught English as a foreign language for several years before joining Express Publishing as an ELT Consultant. She now participates in seminars and conferences around the world, where she enjoys sharing ideas on the latest methodological advances.
